• Comments Dear Chuck,

I would like to make a telephone appointment with you for 11:00 AM Wednesday, March 21, 2007 or whatever time is convenient with you to finalize the issuance of my patent application.

I also note that your last entry into the patent's wrapper is listed as a non-final rejection. Does this mean you have moved this application from "final rejection" to "non-final rejection"? I would appreciate a written answer on this status.

Very truly yours,

Richard N. Hill, Jr.
